RCS Run Time Editor

MSRP

Dealer

'Pro' version included with the purchase of any controller.

Includes the update to the RTE3.

Software Specifications:

- 'Always On-Line' editing and debugging!
- Integrated Graphics and Logic engine.
- NO compiling.
- NO uploading.
- NO firmware upgrades.
- NO Join or channel numbers to assign.
- Native Internet Control
- Built in HTTP server
- Create HTML pages.
- R.A.P. technology (Real Application Programming).
- Control ANY network device, including other computers.
- Powerful Scripting capabilities.
- 'Drag and Drop' creation.

'Free' editing software included:

The RCS Run Time Editor 'Pro' design software is included when you buy any XSYS Controller. This 'Pro' version includes advanced features like HTML creation, an HTTP server, IR waveform editing, and advanced parameters.

(IR files can be imported from 'other' formats)

Multiple OS Compatibility:

The Run Time Editor is compatible with the following platforms:

Windows: 98SE, NT, 2000, XP
MacOS: OSX
Linux: (most 'flavors')

RCS MP3 Player

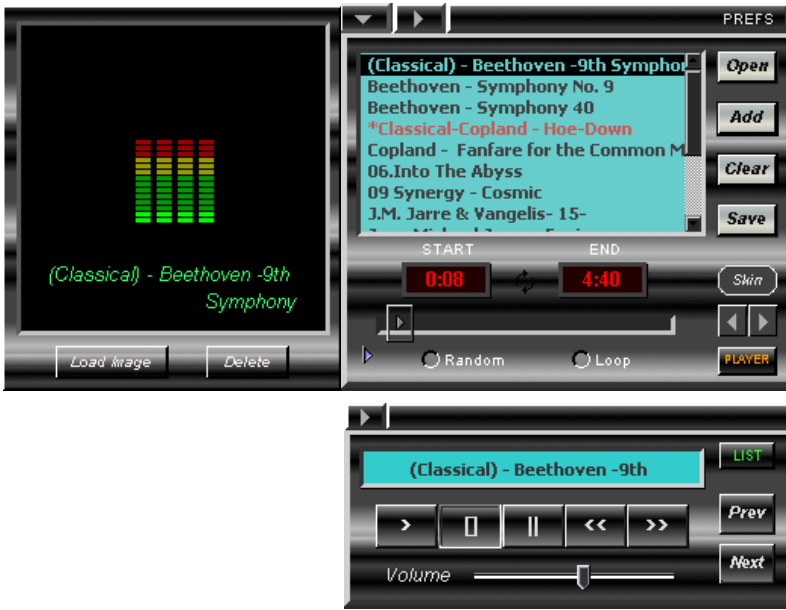

(Network Controllable)

MSRP

Dealer

\$0.00

\$0.00

Specifications:

- Local or Network controlled.
- The Player can be used stand-alone on any computer.
- Standard playback functions, plus an audio 'scrub' bar.
- Configurable and compact.
- Load a different image for each song.
- Windows or Macintosh.
- 200mhz (or better) computer required.
- 64 megabytes of memory,
- 6 megabytes of hard drive space.
- Can be controlled directly from the RTE
- Built in controller interface from the RTE 'Dock'
- Easily controlled from RTE scripts.
- Controlled from ANY network capable software.
- Advanced scheduling control from the RTE!

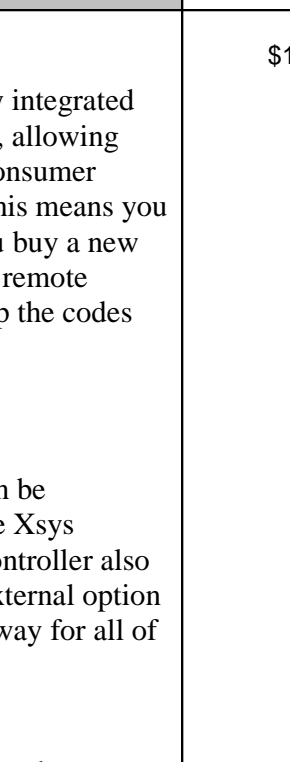

*Included with the purchase of any controller.

RCS MPEG Player (Network Controllable)	MSRP	Dealer
	\$0.00	\$0.00
<p>Specifications:</p> <ul style="list-style-type: none"> - Local or Network controlled. - The Player can be used stand-alone on any computer. - Standard playback functions, plus a video 'scrub' bar. - Configurable and compact. - Windows or Macintosh. - 200mhz (or better) computer required. - 64 megabytes of memory, - 6 megabytes of hard drive space. - Can be controlled directly from the RTE, either from the built in controller interface, or from your own scripts...this also means advanced scheduling from the RTE! 	<p>*Included with the purchase of any controller.</p>	

RCS-REL4	MSRP	Dealer
	\$99.00	- Contact -
<p>Specification:</p> <ul style="list-style-type: none"> - 4 'Dry Contact' closure relays. - 12 to 24 vdc powered (triggered directly from the XSYS outputs). - Up to 120 volt 10 amp on contacts - Led feedback. - No ID to set. <p>Includes:</p> <ul style="list-style-type: none"> - Cover and base plate. 		

RCS-VOL2		MSRP	Dealer
	<p>RTE Integration:</p> <p>The Run Time Editor design software makes it easy to incorporate high quality volume control by simply creating 1 of 4 pre-defined volume controls. There are no IDs to set, or any 'coding' involved...it just works!</p>	<p>\$199.00</p>	<p>- Contact -</p>
<p>Specifications:</p> <ul style="list-style-type: none"> - Positively 'smooth' volume ramping and preset recall. - NO pops. - NO clicks. - NO 'digital zipper' noise. - NO IDs to set. - Up to 8 channels of control. - Mic or Line. - High quality mic amplifier built in. - Works directly from the RCS Xsys 1A Controller. - Frequency Response: <p>Mic: 50 Hz to 30 kHz Line: 10 Hz to 20 kHz</p>	<p>XSYS Integration:</p> <p>Simply connect two wires from the Controller, and you instantly have the highest quality volume control there is! You can 'stack' two per RTE volume control...which means you can control up to 8 volume channels from the RTE!</p> <p>A typical application will be to control a surround sound system with discrete volume level control over each zone.</p> <p>Includes:</p> <ul style="list-style-type: none"> - 24 VDC power supply. - Cover and base plate. 		

RCS IR Learning Interface		MSRP	Dealer
	<p>RTE Integration:</p> <p>Infrared learning is tightly integrated with the Run Time Editor, allowing you to learn almost any consumer remote control there is. This means you will never be 'stuck' if you buy a new device...you can learn the remote quickly, then Drag n' Drop the codes into your project!</p> <p>XSYS Integration:</p> <p>The learning hardware can be integrated directly into the Xsys Controller 1A, so your Controller also becomes a learner! The external option can be used as an IR gateway for all of your remotes!</p> <p>Included:</p> <ul style="list-style-type: none"> - IR Interface and breakout - 1 IR emitter - 12VDC power supply - Expanded IR Library 	\$129.00	- Contact -
<p>Specifications:</p> <p>Integrated with the Xsys 1A Controller. Waveform viewing and 'drawing' Frequency and PWM manipulation. Direct bit manipulation. Frequencies from 22khz to 58khz and above.</p>			

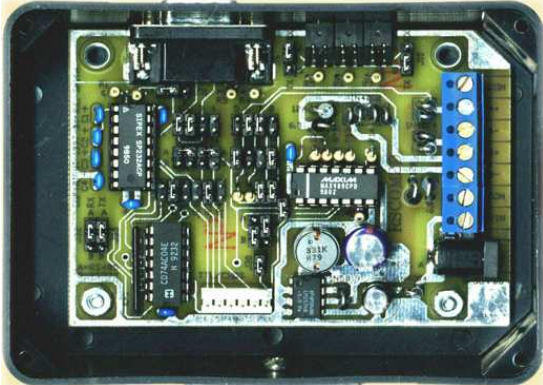

Run Time Editor Master Key (Pro Key)		MSRP	Dealer
	<p>Enables all of the professional features of the Run Time Editor:</p> <ul style="list-style-type: none"> - HTML conversion - IR Waveform viewing and editing - HTTP Server - and more! 	\$99.90	- Contact -
